Creating your Project Logic Model and Time line

CALIFORNIA
PARTNERSHIP TO END
DOMESTIC **VIOLENCE**

Together, We're Stronger.

What is a logic model and how will it help us in our work?
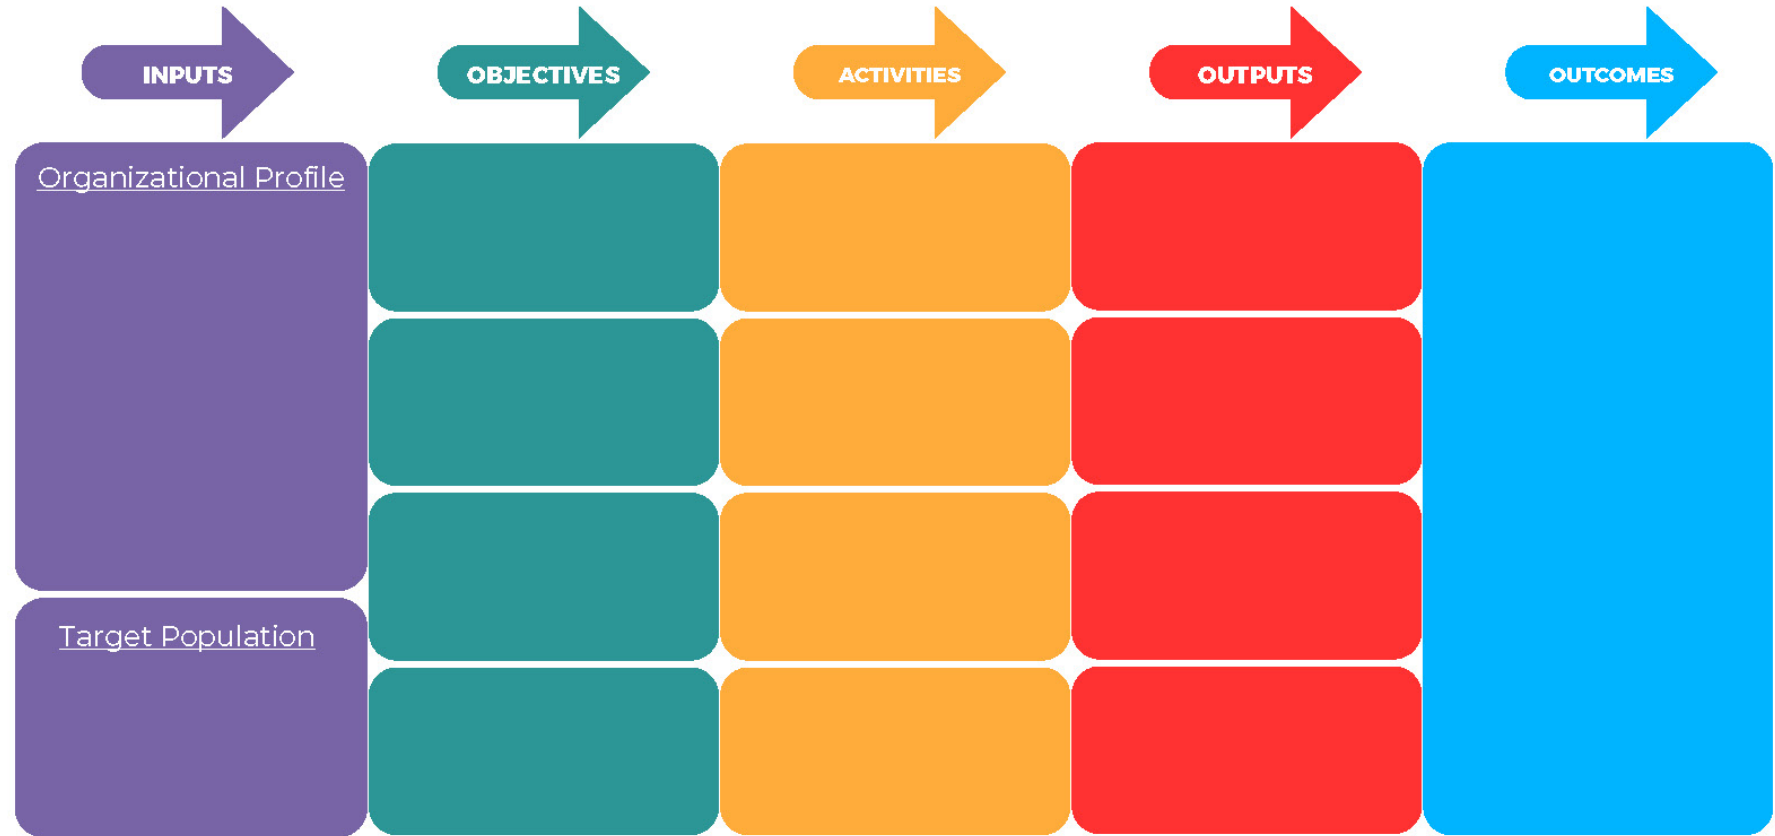

What's logical about a logic model?

Logic Model Template:

Click here to replace this example situation: By 2050, the American Indian/Alaska Native population is estimated to reach 8.6 million people in the U.S. Research indicates that 4 in 5 Native women have experienced violence in their lifetime, well over half have experienced sexual and physical violence by an intimate partner, and over two-thirds have experienced psychological aggression. These high rates of violence continue to erode the fabric of our culture. While there has been great effort to assist victims/survivors and reduce this violence, many barriers and challenges continue to exist.

GOAL: Click to insert your goal here. Hover over each of the boxes below to reveal the prompts and click to add your own text.

Target Population				

ASSUMPTIONS

Addressing violence against Native women is complex work which requires specialized knowledge, strong collaborations, and an understanding of sovereignty and Indigenous ways. Insert Organization Name possesses such attributes and is a powerful community resource for our Native women and children who are victims of domestic violence, dating violence, sexual assault, stalking, and sex trafficking.

Logic Model Project Example

Program: Justice Program | Goal: To provide culturally sensitive services to American Indian/Alaska Native victims and increase awareness of teen dating violence

INPUTS	OBJECTIVES	ACTIVITIES	OUTPUTS	OUTCOMES
Organizational Profile – Justice Program is a non-profit, 501(c)(3) Board of Directors - 6 members **Program Staff** – 8 full-time, 2 part-time, 3 volunteers **Budget** - $500,000	1. Develop and deliver an array of services to victims of teen dating violence	1. Develop and implement a trauma-informed care model & practices; 2. Provide opportunities for clients to participate in cultural ceremonies/activities.	1. Serve at least 30 youth victims by the end of Year 3; 2. Provide access to traditional ceremonies and cultural activities for at least 30 youth; 3. Conduct monthly clinical case consultation and care coordination meetings.	1. Increase identification AI/AN youth victims of teen dating violence; 2. Increase awareness of teen dating violence and healthy relationships among youth in middle and high schools; 3. Enhance the skills and practice of staff teen dating violence; 4. Increase in awareness of teen dating violence among educators and community members; 5. Increase in participation of youth survivors in cultural ceremonies, classes and activities.
	2. Coordinate services and strengthen partnerships with local schools and youth organizations	1. Develop collaboration with local middle/high schools and youth centers; 2. Formalized MOU's with identified partners; 3. Create youth task force.	1. Engage in at least 1 meeting each quarter with MOU partners by the end of Year 3; 2. Engage in at least 1 task force meeting each quarter by the end of Year 3.	
Target Population American Indian and Alaska Native youth	3. Develop and deliver community awareness and public education	1. Create a prevention campaign; 2. Host community education and awareness events; 3. Provide education and awareness to youth.	1. Create at least 3 prevention campaigns with youth task force; 2. Engage in at least 6 awareness and education activities by the end of Year 3.	

Logic Models for Evaluations

How does a logic model get incorporated into your program/project evaluation?

The question being – what difference(s) did our program/project make?

► Is our program/project on the right track, addressing the appropriate issue(s)?

► Is our program/project engaging in the right tasks to accomplish our goal(s)?

► What difference has it made to our clients?

► What difference has it made in our community?

► What are the barriers/gaps?

► How can we improve?

Limitations

Are there limits to what a logic model can accomplish?

Timeline-

the necessary elements of an effective timeline include:

- The lists of tasks to be completed;

- The dates on which the tasks need to be completed by;

- The expected duration of each task (how long will you be working on this task);

- Identify which tasks depend on the completion of other tasks.

Timeline – Example

Increasing Access by Sexual Assault Survivors: The Voices and Perspectives of the Tribal Community
Project Timeline

Tasks / Sub-tasks	1st QTR	2nd QTR	3rd QTR	4th QTR	1st QTR	2nd QTR	3rd QTR	4th QTR	1st QTR	2nd QTR	3rd QTR	4th QTR
OBJECTIVE I – Conduct Needs Assessment												
Form Advisory Panel	✔											
Hold 1st Advisory Board Meeting	✔											
Draft focus group/interview protocols/guide, consent forms, etc.)	✔											
Draft community surveys (i.e., community members, proxies)	✔											
Hold 2nd Advisory Board Meeting (review instruments, recruitment strategies, etc.)		✔										
Edits to instruments based on Advisory Panels' input		✔										
Conduct Community Forum to introduce Project	✔											
Begin recruitment/arrangements	✔											
Conduct 1st round of focus groups		→										
Conduct Analysis												
Transcribe focus group notes					→							
Analyze surveys					→							
Host 3th Advisory Board Meeting (report findings & develop strategic plan)						✔						
Finalize recommendations						✔						
Conduct community forum to share results and action steps with community						✔						
OBJECTIVE 2 – Implement Recommendation												
Provide Specialized Services												
Develop outreach and training materials						→						
Identify policies/codes to be developed and/or revised						→						
Develop/Revise policies/codes						→						
Host 4th Advisory Board Meeting (provide update on project & discuss evaluation measures)						✔						

Summary-
Logic Models and Timelines

Things to remember; Logic models and timelines are your friends.

Realistically, you will be measuring short-term outcomes.

Be careful not to confuse activities with goals and objectives.

Be realistic with outcomes. They should be linked to your program's goals and objectives, and they should be achievable.

Logic models can be reworked if they aren't working for you.

Timelines are a great visual resource for keeping you on track!

This should be a team effort!
